

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

**Claim 1. (Currently Amended)** A silver pigment, consisting of ~~comprising~~ a transparent, platelet-shaped substrate, which is an SiO<sub>2</sub> platelet, Al<sub>2</sub>O<sub>3</sub> platelet, a polymer platelet, a single crystal or a glass platelet, having a refractive index  $\leq 1.9$ , and an average thickness of individual platelets within a standard deviation of  $\leq 20\%$ , and on said substrate a coating of TiO<sub>2</sub> and optionally an outer protective layer, said pigment having a silver interference color, whereby said pigment exhibits color travel.

**Claim 2. (Previously Presented)** A silver pigment according to claim 1, wherein the TiO<sub>2</sub> coating has a layer thickness of 5-300nm.

**Claim 3. (Canceled)**

**Claim 4. (Previously Presented)** A silver pigment according to claim 2, wherein the transparent platelet is an SiO<sub>2</sub> platelet.

**Claim 5. (Previously Presented)** A silver pigment according to claim 1, wherein the average thickness of individual platelets is within a standard deviation of  $\leq 10\%$ .

**Claim 6. (Previously Presented)** A silver pigment according to claim 1, wherein the TiO<sub>2</sub> is in the rutile modification.

**Claim 7. (Previously Presented)** A process for the preparation of a silver pigment according to claim 1, comprising a coating of the substrate by wet-chemical methods, by hydrolytic decomposition of metal salts in aqueous medium or by thermal decomposition by a CVD or PVD process.

**Claim 8. (Previously Presented)** A process according to claim 7, wherein the TiO<sub>2</sub> coating is matched to the substrate as to produce a silver interference color.

**Claim 9. (Previously Presented)** In a paint, coating, printing ink, security printing ink, plastic, button paste, ceramic material, glass, seed coating, dopant for laser marking of plastics or papers, an additive for coloring of foods or pharmaceuticals or,

cosmetic formulation comprising a pigment the improvement wherein the pigment is one according to claim 1.

**Claim 10. (Previously Presented)** A pigment composition comprising at least one binder, at least one silver pigment according to Claim 1, and optionally conventional additives.

**Claim 11. (Previously Presented)** A dry preparation comprising pellets, granules, chips or briquettes of a silver pigment according to claim 1.

**Claim 12. (Canceled)**

**Claim 13. (Canceled)**

**Claim 14. (Canceled)**
